Packaging for Perfumery,  
Cosmetics and Drugstore

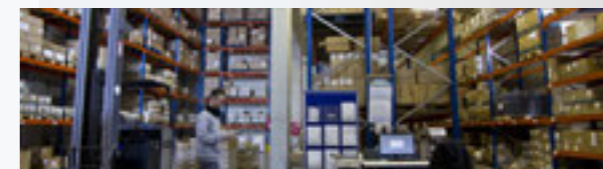

We provide our clients with our vast experience of more than thirty years in the sector. A whole specialized team of consultants especially aware of the latest trends are available for our clients. We offer them our wide range of innovative quality checked products and services, designed for being adapted to and for satisfying the needs of each client regardless its size.

Our team is going to come along in the project definition, advising our clients which is the best option in order to fulfill their desires.

RAFESA thoroughly monitors your product until it has been commercialized, always foreseeing new demands, continually planning the growth of your products and supported by the Quality Department, always ready to solve any incident.

In RAFESA we are knowledgeable that small details makes the difference, that is the reason why we have designed a process that ensures a total traceability of our products allowing us a greater efficiency and effectiveness in order management.
